Khashayar Ramezani

Senior Frontend Developer (React.js | Next.js)

Email: khashayarrm1999@gmail.com | Phone: +98 936 248 7893 | Location: Mashhad, Iran
GitHub: itskhshyr.github.io | LinkedIn: linkedin.com/in/khashayar-ramezani-127213235 | Telegram: @Khashayarrmz

SUMMARY

Senior Frontend Developer with 5+ years of specialized experience designing and developing scalable web applications using React.js and Next.js. Proficient in modern architectures (SDUI, Feature-Based, Single Sign-On - SSO), performance optimization (Core Web Vitals, SSR/SSG/ISR), embedded web apps, and complex enterprise dashboards. Passionate about clean code, agile (Scrum) collaboration, and solving complex technical challenges.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript (ES6+), TypeScript, React.js, Next.js (App Router), HTML5, CSS3

State Management & Data Fetching: Zustand, Redux, React Context API, React Query (TanStack Query), Axios

Styling & UI Libraries: Tailwind CSS, Ant Design, Material UI, Bootstrap, Swiper, Leaflet / Neshan Maps

Architecture & Tools: Server-Driven UI (SDUI), SSR/SSG/ISR, Single Sign-On (SSO), Git, GitHub, GitLab, SonarQube, Figma, RESTful APIs, Zod, next-intl, jalaali-js

PROFESSIONAL EXPERIENCE

Seepan (Sedros Holding) | Frontend Developer | Jan 2026 - Present

Mashhad, Iran

- Architected and developed scalable multi-language platforms using React, Next.js, TypeScript, and Server-Driven UI (SDUI).
- Designed and implemented comprehensive authentication, RBAC, and SSO flows with secure HttpOnly cookies and Zod validation.
- Built responsive, high-performance admin panels and consumer touchpoints using Tailwind CSS and Ant Design.
- Collaborated in Agile/Scrum environment, utilizing GitLab, CI/CD pipelines, and SonarQube for code quality oversight.

Danash-avaran Educational Technology Development | Frontend Developer | May 2023 - Mar 2025

Mashhad, Iran

- Developed digital signage systems and specialized touch apps for smart kiosks and embedded hardware.
- Built integrated queuing and payment web apps with direct Arduino-to-React UI hardware communication.
- Contributed to AI-based advertising analytics dashboards tracking facial expressions, age, and gender metrics.
- Standardized frontend engineering workflows and improved organizational digital product quality.

PROFESSIONAL EXPERIENCE (CONTINUED)

MyLab 724 (HealthTech Startup) | Frontend Developer | Feb 2022 - Mar 2023

Mashhad, Iran

- Developed official medical startup website and specialized doctor/patient dashboards using React.js.
- Optimized responsive UIs for at-home laboratory diagnostics and telemedicine service access.
- Worked closely with product and backend teams across the full product lifecycle from early startup phases.

KEY PROJECTS

Seepan Multi-language Platform

Enterprise urban experience booking portal

- Featuring Schema-based SDUI, custom Proxy layer, Neshan map integration, and secure JWT authentication.

Qeshm Blue Club Smart Kiosk & POS App

Self-service ticketing and payment application

- Built for aquatic club kiosks with instant payments, thermal printer support, and POS hardware integration.

Shiraz Railway Digital Signage

Public transport information publishing platform

- Displays live timetables, weather, polls, and transport maps on smart displays.

Face-AI Analytics Dashboard

Real-time webcam analytics panel

- Tracks demographics and emotional responses to support advertising campaign optimization.

EDUCATION

BSc in Computer Software Engineering | Torbat-e Heydarieh University | Sep 2017 - Jan 2023 | GPA: 16/20

LANGUAGES

Persian (Native) | English (Advanced) | German (A2)

CERTIFICATIONS

Front-End Developer Course, i3center | Sep 2021
